SUMMARY

Motivated Computer Science student with a strong passion for technology and a commitment to continuous learning. Proven leadership abilities demonstrated through participation in team projects where collaboration and effective communication were essential. Skilled in fostering teamwork to achieve common goals, while maintaining a positive and productive environment. Enthusiastic about applying theoretical knowledge to practical challenges, seeking opportunities that allow for personal and professional growth in the tech industry.

OBJECTIVE

Aspiring and dedicated Computer Science student with solid academic grounding and hands-on experience in both front-end and back-end development. Proficient in Python, with working knowledge of Java and PHP, and specialized in building full-stack web applications using the Django framework. Passionate about writing clean, efficient code and continuously improving programming skills. Seeking a position to contribute technical expertise, creativity, and enthusiasm to a forward-thinking development team.

EDUCATION

Studying Computer Science   **August 2024 - present**

University of Zimbabwe . Harare.

Gained a foundational understanding of computer science principles, including algorithms, data structures, and programming languages. Engaged in hands-on coding projects, collaborated on team assignments, and developed problem-solving skills. Enhanced critical thinking and analytical abilities in a technical environment.

WHAT L KNOW

My core skills

Skills.

- Strong proficiency in Python, with solid programming skills and academic achievement (2.1 grade in Python module).
- Basic knowledge of PHP and Java.
- Good understanding of MySQL for database management.
- Specialized in the Django framework, with experience in both front-end and back-end web development.
- Confident and eager to learn in building full-stack applications, writing clean and functional code, and solving programming problems effectively.

SKILLS

- Eager to learn
- Leadership
- Commitment
- Teamwork
